

FIELD OF USE

Bi-material insulated plier for live working.

Operating voltage range : **1000 V AC - 1500 V DC.**

CHARACTERISTICS

- In accordance with **IEC 60900** standard.
- Flat nose insulated plier.
- Tool body made of chrome vanadium steel with high mechanical resistance. Special surface coating TITACROM resistant to corrosion, impacts and with antireflection property.
- Tool body in accordance with DIN ISO 5745 standard.
- Ergonomic bi-material insulating handles. Orange and black colors. Back material soft and non-slip.
